This Sunday at EVC – 9 a.m. or 10:45 a.m.

We read a lot of articles about contamination these days. Contaminated water, soil, lettuce, and beef and on and on it goes. We're concerned about nuclear, chemical and biological contamination. The word contamination means that a poisonous element has crept into something that would otherwise be wholesome or healthy. We're going to look at a verse from 2 Corinthians 7:1 that tells us our soul can become contaminated. We live in a toxic world. How can we stay pure? How can we live clean lives in a polluted world? That's the topic I want to deal with this Sunday as we continue our series on Issues: Facing life's struggles with victory. See you Sunday!

Children's Ministry - Attention parents of children in the nursery – 5th grade. Starting August 29 we will be switching to an electronic check in system. To make the transition easier, please fill out an info card before Aug. 29. You can find one at the kids table on the front lawn this Sunday.
