

Hope Unlimited for Children, Brazil

In a land that is beautiful and wealthy, millions of children are begging. Today, 20 million children live at or below the poverty level. Many choose to live there instead of facing abuse from family members.

Others simply live on the streets simply because they have been abandoned by their parents. Hope Unlimited's mission is a mixture of job skills and education; shelter and love. Hope has learned that only goes so far. The spiritual component is first and foremost. Phillip Smith, the director of HOPE says, "The parenting stuff goes a long way with a lot of them, but in some cases without God, they're not going to change." Hope teaches them skills like food preparation, auto repair, sewing, and computers. These kids have the life skills to become productive members of society. Last year 31 former street kids graduated from the 4-year program. Lives that were wasted are now transformed.

How You Can Pray

- Thank God for the new playroom addition.
- Pray that God will give the staff additional creative ideas to encourage and nurture the children.
- Pray that God will touch the hearts of ministry partners so that the needs of the children can be met.
