KAMPUCHEA FOR CHRIST

Kampuchea for Christ was founded on July 8th, 1995, with its founder and president Setan Lee and seven co-workers. Though Setan is an American citizen, he was raised Cambodian, and the rest of the staff from its founding until today is Cambodian. The first thing that KFC did was to establish the Ministry Training Center, to train and build up a group of equipped evangelists, church planters and pastors who could go out and share the gospel to all of Cambodia. KFC provides Cambodia with humanitarian outreach through medical missions, well digging, food distribution, urban youth outreach and children feeding programs. KFC is actively involved in evangelism and church planting throughout the country.
